

LITE-ON GETS IT RITE-ON

LITE-ON IT is proud to announce the introduction of five new models from its DVD recorder and HDD+DVD recorder product lines.

As with their LVW-5045 Lite-Ons FAB-five new editions all come with their award winning Easy Guider™ interface, are exceptional quality, simple to operate and are very competitively priced.

Out of the five sleek new designs, three are additions to the HDD+DVD recorder series and two are DVD recorders. All possess Lite-On's market-leading features but provide different recording capabilities and functionality, thus consumers can choose a system tailored to meet their individual and specific user requirements.

Common Key Features

- ❑ **Easy Guider™:** The award-winning exceptionally user friendly Easy Guider interface for effortless operation.
- ❑ **Pause live TV:** Time Shift function, which allows users to conveniently "pause live TV" for viewing at leisure
- ❑ **Record whilst you Play:** The flexibility to playback a recorded program before recording comes to an end.
- ❑ **DV link:** For connection to external camcorders and video devices for video storage.
- ❑ **DivX® Certification:** All models are officially DivX® certified, and play all versions of DivX® videos providing versatile video playback options to achieve ultimate viewing satisfaction.

DVD RECORDER MODELS

The LVW-5115GHC+

This model features **Video+** for easy scheduling recordings, and useful playback compatibility with all popular media files.

The LVW-1105HC+

This little cutie holds the same playback diversity and connectivity, but with its compact size (about the same size of an A4 paper) it is also the first "mini" DVD recorder on the market.

HDD DVD MODELS

The LVW-5055GDL+

This the top of the range model features a built-in 250GB HDD (hard disk drive) for extended video recording capacity up to 330 hours depending upon resolution selected. *(pic on page2)*

The LVW-5045GDL+

Including all the functions and features of the LVW-5055 this includes a 160GB HDD for up to 200 hours of video recording.

THE LVW-5025GHC+

Last but not least is the entry level model in the series that's equipped with an 80GB hard disk drive capable of storing up to 100 hours of video recording.

Additional Key Features (HDD range)

- ❑ **Two-Way Copy:** this enables easy back up of media files from a disc to the built in hard disk drive and vice versa
- ❑ **AllWrite™ Disc writing:** The range benefits from AllWrite™ technology integrated into their systems which enables the recorders to use multiple disc formats including DVD+R(W) and DVD-R(W) as well as CD-R(W), so users need not worry about purchasing the incorrect disc format.
- ❑ **Double layer disc recording;** Both the high-end units the LVW-5055GDL+ and LVW-5045GDL+ support DVD+R double layer disc recording for storing up to a massive 8.5GB of data on a single DD disc.

Specifications: for full technical information please see individual product specification sheets.
